Symbols and other usages

The following symbols, where shown in columns of figures or elsewhere in tables, mean:

- n.a. not available
- n.e.i. not elsewhere included
- n.p. not available for separate publication (but included in totals where applicable)
- n.y.a. not yet available
- nil or rounded to zero
- .. not applicable
- p preliminary - figure or series subject to revision
- r figure or series revised since previous issue
- _____ break in continuity of series (where drawn between two consecutive figures or columns)

Rounding Figures

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

Analysis of Table 1.1

The mean population for 1993-1994 increased by 21,300 over 1992-1993, 7% more than the 19,900 increase between 1991-1992 and 1992-1993.

The mean population for the 1993 calendar year increased by 19,100 on 1992. The increase was less than the 1992 increase of 21,300 over 1991.

In the June quarter 1994, Western Australia's population grew by 6,300 persons to 1,701,900. The increase was less than the March quarter 1994, but more than all quarters in 1993.

Analysis of Table 1.2

In the June 1994 quarter, increases were recorded for each population component. The total increase was down on the total increase for March 1994 quarter, with the largest contributor to the decrease being net estimated overseas migration, down 2,500.

Net estimated interstate migration, which increased by 500, recorded the only increase from the March quarter. This continues the increase over the previous three quarters and is the fifth consecutive positive quarter.

Analysis of Table 1.3

The number of divorces registered in the 1993-1994 financial year increased by 549 over the previous financial year. Over the same time period, the number of marriages registered remained relatively unchanged. September quarter 1994 divorces rose slightly by 50 from June quarter.

For September quarter 1994 there was a large decrease of 1,024 marriages and 192 births from June quarter 1994. The number of deaths increased by 294 over the same period. These figures illustrate a trend for more people to die and less people to marry during the winter months.

Infant deaths remained unchanged from June quarter 1994.

Analysis of Table 1.4

Rates for live births and marriages dropped in September quarter 1994, matching the decline of numbers from June quarter 1994. For live births, the rate fell from 15.18 to 14.67, following a similar occurrence in 1993. For marriages the rate declined from 5.85 in June quarter to 3.43, matching a similar decline in 1993 when the rate fell from 5.88 to 3.46.

The rate for total deaths increased from 5.93 to 6.60 in September quarter 1994 which followed a similar occurrence in 1993. There was a slight rise in the divorce rate from 3.02 to 3.13 and in the infant death rate for September quarter 1994.

For more information about these tables, contact Audrey Cooke on (09) 360 5389

(a) For financial and calendar years the rate is per '000 mean resident population. For quarters, the mean is averaged between the previous and current quarterly population. (b) Infant deaths per 1,000 live births

Analysis of Table 2.1

In the September quarter 1994 there were 6,610 long term arrivals, an increase of 24% compared with the September quarter 1993. There were approximately half as many long term departures (3,430) as arrivals. Long term departures increased 4% compared with the same time last year.

There were 2,410 permanent settler arrivals to Western Australia in the September quarter 1994. This is an increase of 670 arrivals or 38% compared with the same quarter last year. This follows on a 29% increase for June quarter 1994 compared with June quarter 1993.

The number of long term overseas visitor arrivals (visitors who intend to stay for longer than 12 months) for September quarter 1994 increased by 410 arrivals or 25% compared with the same quarter last year.

PERMANENT SETTLER ARRIVALS AND PERMANENT DEPARTURES 1984 - 1994

Analysis of Table 2.2

Short term overseas visitor arrivals for September quarter 1994 increased 25% compared with the same quarter last year. This follows on an 18% increase for June quarter 1994 compared with June quarter 1993.

The number of Australian residents departing on short term overseas journeys in the 1994 September quarter increased 11% (compared with September quarter 1993) to 84,200.

Analysis of Table 2.3

Short term overseas arrivals by air for September quarter 1994 (73,500) were up by 14,800 arrivals or 25% compared with September quarter 1993. The largest increase was in Indonesian arrivals whose numbers more than doubled, increasing from 4,100 for the September quarter 1993 to 8,900 for the September quarter 1994. For the same period the number of Japanese arrivals decreased from 8,600 to 8,400.

The major source countries were Singapore (15% of total), the United Kingdom and Ireland (14%), Indonesia (12%) and Japan (11%).

Analysis of Table 2.4

September 1994 marked the introduction of new passenger cards and this represents a break in statistical series for overseas arrival and departure statistics classified by *purpose of journey*.

In the September quarter 1994 there were 73,500 short term overseas arrivals by air. Some 43,300 arrivals or 59%, gave the reason for their journey as holiday, and a further 15,200 arrivals or 21% said they were visiting friends or relatives.

The leading source countries for short term arrivals on holiday were Singapore (18% of total), Japan (17%) and Indonesia (15%).

For short term arrivals visiting friends or relatives the leading source countries were the United Kingdom and Ireland (31% of total) and New Zealand (19%).

Analysis of Table 2.6

Of the 84,100 short term resident departures by air in September quarter 1994, 61% were going on holiday, 17% were visiting friends relatives and 15% were going to a convention/conference or to do business.

For residents departing on holiday the most popular destinations were Indonesia (35% of total), and the United Kingdom and Ireland (13%).

Of those residents departing to visit friends/relatives overseas, 34% went to the United Kingdom or Ireland, and a further 13% went to New Zealand.

SHORT TERM OVERSEAS RESIDENT DEPARTURES BY AIR: PURPOSE OF JOURNEY: HOLIDAY 1992-93, 1993-94

Analysis of Table 2.7

Whilst the availability of all types of tourist accommodation in Western Australia has increased steadily over the last few years, there has been substantial growth in the numbers of Holiday Flats, Units and Houses available for letting. This is well indicated by increases of 5.1% in 1991-92 and 5.2% in 1992-93. The Tourism Industry has continued to meet this demand for self catering, self contained accommodation in 1993-94 resulting in an increase of 11.6% to 2,224 units as at 30 June 1994.

Analysis of Table 4.1

The data in this table have been revised and now show data from the redesigned Retail Business Survey. See Information Paper (8511.0) issued on 1 December 1994 or Retail Trade Australia (8501.1) for more detail on the survey redesign.

Estimated turnover of Western Australian retail establishments during January 1995 was \$910.9 million (at current prices), a decrease of 28.1% over the previous month. The trend estimates however show an increase of 0.4% over the previous month.

From January 1994 to January 1995, trend estimates indicate a national annual growth rate of 7.0%. The annual growth rate for Western Australia for the same period was 5.5%.

The national trend estimates show increases of 0.5%, 0.4% and 0.3% for the months of November and December 1994 and January 1995. For the same three months, Western Australia recorded increases of 0.6%, 0.5% and 0.4% respectively.

Analysis of Table 4.2

The Consumer Price Index (CPI) Perth All Groups December quarter 1994 increased by 0.8% over the preceding quarter. Major contributors to the increase were housing (up 3.7%); tobacco and alcohol (up 1.7%); recreation and education (up 1.6%); health and personal care (up 0.6%). The decrease in transportation (down 0.6%); clothing (down 0.5%); and food (down 0.2%); helped to keep the all groups increase to less than 1.0 %.

The following sub-groups had a significant impact on the rise from the September quarter 1994 to the December quarter 1994: mortgage interest charges; local government rates and charges; cigarettes and tobacco; and domestic holiday travel and accommodation.

The increase in the CPI from December 1993 to December 1994 was 2.3%. Contributing most to the annual increase were housing (up 5.6%); tobacco and alcohol (up 5.3%); health and personal care (up 4.5%) and transportation (up 2.6%).

Analysis of Table 5.1

The number of houses approved in February 1995 increased by 8.6% when compared with January 1995 and decreased by 21.6% when compared with February 1994. The number of total dwelling units approved in February 1995 increased by 3.3% when compared with January 1995 and decreased by 10.0% when compared with February 1994.

The Building Approvals trend series for houses peaked at 1,670 in April 1994 and since that time has steadily declined to a level of 1,345 in February 1995.

#### Analysis of Table 6.4

When compared with the previous year, coal production in 1993-94 fell by 5.4% to 5,151,000 tonnes. All of this shortfall occurred in the last quarter of the year and was caused by the undertaking of a major economic rationalisation process by coal producers. A general move away from underground mining was the major consequence of this rationalisation.

For more information about this table, contact Diane Braskie on (09) 360 5932

#### Analysis of Table 6.7

During the June Quarter, the value of Gold production rose by 5.5% and that of Iron Ore by 15.2% when compared with the March Quarter. Notable production increases in 1993-94 were Gold by 7.9% to 193.8 tonnes, nickel 13.1% to 61,000 tonnes and Iron ore by 7.1% to 119.7 million tonnes.

For more information about this table, contact Yvonne Masgai on (09) 360 5932

### Analysis of Table 9.2

The pace of growth in GSP has slowed a little in the September quarter, to match the national rate of 2.2%. However the annual rate of 10.4% is well above the corresponding Australian average of 7.7%. Wages, salaries and supplements weakened compared with previous quarters to rise by only 0.8%. Although indirect taxes less subsidies increased by 2.7% in the September quarter, the annual rate was 17.2%, significantly higher than the national growth rate of 14.0%.)

## FOR MORE INFORMATION . . .

The ABS publishes a wide range of information on Australia's economic and social conditions. A catalogue of publications and products is available from any of our Offices (see below for contact details).

### Information Consultancy

Special tables or in-depth data investigations are provided by the ABS Information Consultancy in each of our Offices (see below for contact details).

### Electronic Data Services

A growing range of our data is available on electronic media. The ABS intends discontinuing its statistical information service on DISCOVERY. Please contact Peter Davidson (Phone 06 252 6684) to discuss possible alternatives for acquiring statistics or if you wish to comment on this proposal. Our Telestats service delivers major economic publications ready to download into your computer on the day of release. Our Ausstats service enables on-line access to a data base of thousands of up-to-date time series. Selected datasets are also available on diskette or CD-rom. For more details on our electronic services, contact Information Services in any of our Offices on the numbers below.

### Bookshops and Subscriptions

There are over 500 titles available from the ABS Bookshops in each of our Offices. You can also receive any of our publications on a regular basis. Join our subscription mailing service and have your publications mailed to you in Australia at no additional cost.

### General Sales and Inquiries
